Mandana Soleimani, MBA, PMP, CSM, is Senior Vice President of Global Program Management Office. In this role, Mandana works with the global leadership to ensure proper selection and execution of critical initiatives. Her areas of responsibility include Project, Program and Portfolio Management, Change Management, Process Improvement and Governance, and Right-sourcing management.

Soleimani has over 20 years of professional experience at fortune 500 companies including CBRE, Warner Brothers (Time Warner), Mattel Inc., Sony Pictures Entertainment, Warner Music Group and Liberty Enterprises. In roles of increasing responsibility within Marketing, Information Systems, Executive Decision Support, and Program/portfolio management, Soleimani's experience spanned across multiple business divisions including Sales and Marketing, Human Resources, Corporate Applications, Forecast and Demand Planning, Order Management, and Retailer Category Management.

Soleimani's core function in her roles included technology strategic planning, process governance design and execution, project/portfolio management, customer relationship management, and annual marketing and technology financial planning.

Soleimani received her Bachelor of Arts degree from California State University - Northridge, her Masters in Business Administration (MBA) degree from Pepperdine University with an emphasis on Leadership and Managing Organizational Change, and holds multiple disciplines of Project Management Professional certification.

She is a recipient of multiple awards from Mattel executive leadership for delivering on critical enterprise solutions and portfolio management.

She has served as a member of National Association for Women MBAs (NAWMBA), Project Management Institute (PMI), Scrum Alliance, Oracle Leaders on Forecast to Demand Planning, WOW (Women of Warner) and IAW Foundation.

Additionally Soleimani supports philanthropic endeavors sponsored by UNICEF, Child Foundation, and St. Jude Children's Research Hospital.
